Technical Skills

Languages	Frameworks, Libraries	Tools
Ruby, SQL, JavaScript, TypeScript	Ruby on Rails, React, Sorbet	git, Heroku, AWS, dbt, Snowflake, Elasticsearch, Looker, Mixpanel

Professional Experience

Senior Software Engineer @ VTS

Sep 2022 - Aug 2023

- Worked on building in-app analytics for the VTS marketplace product to help users understand how their listings are performing on the market
- Became proficient in data pipeline supporting the analytics product (Snowflake/dbt/ElasticSearch/gRPC) and onboarded other team members
- Acted as an epic lead for multiple projects and created technical plan documentation
- Worked closely with product and design to support the discovery process prior to building new features
- Performed data research by running complex SQL queries on a production data set, built internal dashboards in Looker
- Acted as a member of DevOps rotation: application deployment, health monitoring, responding to incidents
- Conducted coding interviews with candidates of all engineering levels

Software Engineer @ VTS

Mar 2019 - Sep 2022

- Worked on various features within the main full-stack app
- Worked on migrating the app from Angular to React, from JavaScript to Typescript

Associate Software Engineer @ VTS

Oct 2018 - Feb 2019

- Maintained and extended ETL to support external BI product
- Created and maintained customer dashboards powered by Looker and integrated into the main application

QA Analyst @ VTS

Dec 2015 - Oct 2018

- Tested CRE leasing and asset management platform (web and mobile applications)
- Worked closely with product, engineering, and design teams
- Worked in a fast-paced agile environment and support up to 4 teams at a time
- Participated in the hiring process by interviewing QA Analyst candidates

Senior QA Engineer @ Code and Theory

Sep 2012 - Nov 2015

- Worked in a fast-paced agile environment and lead testing efforts on 3-4 projects at a time
- Worked with and managed an offshore QA team located in Manila, Philippines
- Participated in the hiring process by interviewing QA Analyst candidates

---

Education

Flatiron School

Full-Stack Web Developer 2017 - 2018

Belarusian State University

Mathematics and Computer Science 2004 - 2008
